

JOSE MARTIN R. IMPERIAL

INFORMATION TECHNOLOGY STUDENT

+63 966 927 9671 | josemartin.imperial@gmail.com | <https://github.com/CodinWaffle>

SUMMARY

Adaptable IT Student specializing in Full-Stack Web Development using Python/Flask, TypeScript, and Supabase. Experienced in building responsive, modern applications from the ground up, with a strong emphasis on clean architecture and design fidelity. Skilled in utilizing AI-assisted workflows to solve complex problems and deliver polished results.

TECHNICAL SKILLS

- Programming Languages: Javascript, TypeScript, Python, LUA , PHP.
- Frameworks & Libraries: React JS, Next JS, Bootstrap, Flask, Django.
- AI Development Tools: VS Code + Copilot, Claude Code, ChatGPT
- Technologies: MySQL, Supabase, Linux, Git, Bash, API

PROFESSIONAL EXPERIENCE

Stride-Ecommerce-College-Project

Sept 2025 - Dec 2025

- Developed a full-stack e-commerce marketplace using Python and Flask, featuring a robust seller dashboard and secure marketplace functionality.
- Designed a responsive user interface using HTML, CSS, and Bootstrap, leveraging AI-driven design tools to generate high-fidelity assets and ensure professional branding.
- Implemented dynamic front-end features with JavaScript to improve user engagement and real-time interaction.

Dione-Ecommerce-College-Project

Oct 2025 - Dec 2025

- Built a high-performance web application focused on a clean, modern UI/UX using Bootstrap and custom CSS styling.
- Utilized AI tools for rapid prototyping and front-end code optimization, allowing for strict adherence to a specific white-and-purple visual identity.
- Managed back-end logic and data flow using Python and Flask, ensuring a seamless and responsive experience for end-users.

EDUCATION

Laguna State Polytechnic University

2023–Present

Bachelor of Science in Information Technology

AMA

2021-2023

ICT - Information and Communication Technology.
